M029 - DC/DC Converter

DC/DC converter input: 6 - 14 V/DC, output: 11 - 26 V/DC
This electronically controllable DC voltage converter transforms a low input voltage in to a nearly twice as high output voltage. Output voltage decreases whenever there is a higher load. With the help of an additional potentiometer of 4,7 k lin. output voltage can be limited towards higher rates at input voltages of over 10 V.

Technical Data:
Input voltage: 6 - 14 V/DC
Output voltage: 11 - 26 V/DC direct current (depending on load)
Output current: max. 2 A
Dimensions: approx. 70 x 60 x 23 mm (without fastening straps)
