M038N - DC-Converter

M038N

von 24 V/DC auf 12 V/DC (13,8 V/DC), max. 3 A
For operation of 12 V/DC devices at a 24 V/DC lorry or boat battery. Short circuit-proof, shock-proof module.
Important installation instructions, please note!

Technical Data:
Input voltage: 24 - 28 V/DC
Output voltage: approx. 13,8 V/DC (equivalent to a full loaded 12 V/DC battery)
Maximum current: 3 A
Dimensions: approx. 87 x 60 x 33 mm (with mounting bottom)
