A detailed diagram of the power supply unit, a black rectangular box with mounting tabs. It features a 'CE' mark and 'UL1651A-100V' on the top left. The top center has a '20A 100V' input terminal. The front panel includes a 'POWER' switch, a 'POWER' indicator light, and a 'POWER' label. Below these are two 'POWER' indicator lights and a 'POWER' label. The bottom left has a 'POWER' terminal. The bottom right has a 'POWER' terminal. The unit is shown connected to a power source (a wall outlet) and a battery (a bicycle battery) via various cables and connectors.

Dimensions: approx. 40 x 40 x 12 mm (without switch and fastening straps)

[illegible]
