## S109 - Optical fiber cable, approx. 2 m

Conducts light and other optical signals to another place. For use in model making, decoration applications, audio applications. With black outer sheath so that the light can only exit at the end. It may be put before LED light sources in models, can be shortened as desired and is flexible.

**Technical Data:**

Outside:  $\varnothing$  approx. 2.2 mm  
Inner conductor:  $\varnothing$  approx. 1 mm  
Cable profile: fiber optic  
Bending radius: at least 25 mm  
Attenuation: approx. 0.23 dB/m
